

## Gloves Sizing Chart

Glove sizes can vary slightly from brand to brand. So to help you choose the best fit we have provided the "handy" sizing chart below. To find your glove size, wrap a tape measure around your palm and measure the circumference of your hand. Take note of how many inches around your palm measured. Compare that measurement to the chart below, select the right size gloves and place your order. Simple.

For instance, if your palm measures 7 ½" around, you would want to order a size small glove, sometimes referred to by manufacturers as a size 7 to 8.

Palm Measurement (In.)	Glove Size
6 to 7	XS
7 to 8	S
8 to 9	M
9 to 10	L
10 to 11	XL
11 to 12	XXL
